EXPLANATION OF MEDICAL SPECIALTIES

**Allergy & Immunology:** Evaluation, physical and laboratory diagnosis, and management of disorders involving the immune system.

**Anesthesiology:** The anesthesiologist’s principal task is providing pain relief and maintenance of a stable condition during an operation. The anesthesiologists assess the risk of the patient undergoing surgery and optimize the patient’s condition prior to, during, and after surgery.

**Cardiology:** Diseases of the heart, lungs, and blood vessels and manages complex cardiac conditions such as heart attacks, and life-threatening, abnormal heartbeat rhythms.

**Cardiovascular Surgery:** Surgical correction of cardiac disorders. Cardiac surgical services range from repairing congenital heart defects in infants and children to performing heart transplantsations and other complex procedures for high-risk adult patients.

**Dermatology:** Diagnosis and treatment of patients with benign and malignant disorders of the skin, mouth, external genitalia, hair and nails.

**Emergency Medicine:** Emergency Medicine is primarily a hospital-based specialty, which involves the treatment of patients who come to an emergency room. The emergency physician provides immediate evaluation, care, and disposition of patients with acute illness and injury. If the emergency physician feels the patient should be admitted, then they are referred to the appropriate specialty of medicine or surgery for admission to the hospital.

**Endocrinology:** Disorders of the internal glands such as the thyroid and adrenal glands. Also deals with disorders such as diabetes, metabolic and nutritional disorders, pituitary diseases, and menstrual and sexual problems.

**Facial Plastic Surgery:** Focuses on the knowledge, skill and understanding required to perform esthetic, plastic and reconstructive surgery of the face, head, and neck.

**Family Practice/General Practice:** Prevent, diagnose and treat a wide variety of ailments in patients of all ages, with special emphasis on care of families on a continuing basis.

**Gastroenterology:** Treatment of diseases of the digestive organs including the stomach, bowels, liver, and gallbladder.

**Geriatric Medicine:** Geriatric Medicine is not regarded as a sub-specialty, but rather as an added competence in trained internists. The elderly have special needs since they often have an altered presentation of illness and special drug interactions.

**Gynecology:** Medical and surgical care of the female reproductive system and associated disorders.

**Infectious Disease:** These sub-specialists deal with infectious diseases of all types and in all organs. Conditions requiring selective use of antibiotics call for this special skill. Patients with fevers that have not been explained, as well as rare and exotic infections with bacteria, viral and fungi, are often diagnosed and treated by these sub-specialists. They are especially suited to help in the treatment of patients who may present multiple and unique infections.

**Internal Medicine:** Long-term and comprehensive care; managing both common and complex illness of adolescents, adults, and the elderly.

**Nephrology:** Disorders of the kidney, high blood pressure, fluid and mineral balance, and dialysis of body wastes when the kidneys do not function.

**Neurology:** Diagnosis and treatment of all types of disease or impaired function of the brain, spinal cord, peripheral nerves, muscles, and autonomic nervous system, as well as the blood vessels that relate to these structures.

**Neurosurgery:** Operative and non-operative management of disorders of the central, peripheral, and autonomic nervous systems.

**Obstetrics & Gynecology:** The care of women during pregnancy, childbirth, and the recuperative period following delivery. Medical and surgical care of the female reproductive system and associated disorders.
EXPLANATION OF MEDICAL SPECIALTIES

Oncology/Hematology: (O) Diagnosis and treatment of all types of cancer and other benign and malignant tumors. Administers chemotherapy, as well as other treatments for cancer. (H) Diagnosis and treatment of diseases of the blood, spleen, and lymph glands; treats conditions such as anemia, clotting disorders, sickle cell disease, hemophilia, leukemia, and lymphoma.

Ophthalmology: Diagnose, monitor, and medically or surgically treat all ocular and visual disorders.

Orthopedic Surgery: Preservation, investigation and restoration of the form and function of the extremities, spine, and associated structures by medical, surgical, and physical means.

Otorhinolaryngology (ENT): Diseases and disorders that affect the ears, nose, throat, the respiratory and upper alimentary systems and related structures of the head and neck.

Pain Management: High level of care for patients experiencing problems with acute, chronic and/or cancer pain.

Pathology: Causes and nature of disease detected through microscopic examination of tissue specimens, cells and body fluids and from clinical laboratory test on body fluids and secretions.

Pediatrics: Physical, emotional, and social health of children from birth to young adulthood.

Physical Medicine & Rehabilitation: Physical medicine and rehabilitation is the medical specialty concerned with diagnosing, evaluating, and treating patients with physical disabilities.

Plastic Surgery: Repair, reconstruction, or replacement of physical defects of form or functions involving the skin, musculoskeletal system, craniomaxillofacial structures, hand, extremities, breast and trunk, and external genitalia.

Psychiatry: Prevention, diagnosis, and treatment of mental, addictive, and emotional disorders such as schizophrenia and other psychotic disorders, mood disorders, anxiety disorders, substance-related disorders, sexual and gender identity disorders, and adjustment disorders.

Pulmonary Medicine: Diseases of the lungs and airways, such as cancer, pneumonia, pleurisy, asthma, occupational diseases, bronchitis, sleep disorders, emphysema, and other complex disorders of the lungs.

Radiation Oncology: Therapeutic applications of radiant energy and its modifiers and the study and management of disease, especially malignant tumors.

Radiology (Diagnostic): These are specialists of medicine who are highly trained to read and interpret X-rays of the body. These physicians are referred patients either as outpatients or in the hospital to help in the medical or surgical evaluation of patients. They prepare reports to the referring physician to help them in their diagnosis and treatment plan. Additional techniques of evaluation include ultrasound, CAT or MRI-scans. In addition, special invasive procedures may be performed in which dyes may be injected into arteries or veins to allow better visualization of body structures. The radiologist also provides interventional care and may catheterize arteries, perform angioplasty to expand and dilate the vessel lumens to improve blood flow.

Rheumatology: Diseases of joints, muscle, bones, and tendons.

Surgery – General: Broad spectrum of surgical conditions affecting almost any area of the body.

Surgery - Thoracic: Operative, perioperative care, and critical care of patients with pathologic conditions within the chest.

Surgery - Vascular: Surgical management of disorders of the blood vessels, excluding the intercranial vessels of the heart.

Urology: Benign and malignant medical and surgical disorders of the genitourinary system and adrenal gland.

Vascular: Relating to the vessels of the body, especially the arteries and veins that carry blood and lymph.
Logo Indication Key

The We Care Manatee logo located in the top right corner of the Physician’s bio indicates that they are a volunteer Physician at We Care Manatee.

The Manatee County Medical Society logo located in the top right corner of the Physician’s bio indicates that they are an active member of the Manatee County Medical Society.

Worker Compensation Plan

Sample
$100,000 Payroll = $680

2015 MCMS S.S% Dividend = $35
MCMS Premium = $645

the difference

Professional Benefits Inc. partnered with AmTrust to bring MCMS members a unique workers compensation program that annually provides a dividend based on MCMS losses. Workers compensation rates are the same, no matter which carrier you choose, but Boyd & PBI is the group that thinks of you first.

Benefits that work for you.

Manatee County Medical Society announces a superior malpractice product at competitive pricing for Manatee County professionals

Manatee County Medical Society, together with Willis Towers Watson and MedPro Group, has worked diligently to develop an industry-leading healthcare liability solution for MCMS physicians.

PROGRAM HIGHLIGHTS
• Superior coverage with flexibility — each physician may choose his or her own policy limits and policy type: occurrence, convert to occurrence, or claims-made coverage
• A full consent to settle provision
• Free retirement tail after one year of paying a mature rate, regardless of age
• Superior risk management solutions
• $50K cyber liability coverage at no additional charge
• Prior acts coverage available

INSURANCE CARRIER HIGHLIGHTS
Healthcare liability insurance is provided by the national leader: MedPro Group
• A Berkshire Hathaway company that has defended physicians since 1899
• Only healthcare liability insurer with an A++ (A.M. Best) financial strength rating
• 400,000+ malpractice cases handled
• 80% of cases closed without payment
• 90% national trial win rate
• 200,000+ insureds

Join your colleagues at Manatee County Medical Society and begin saving today.

**Suncoast Behavioral Health Center** is a private, acute inpatient psychiatric facility designed to provide quality services in a supportive, healing and empowering environment to children, adolescents and adults who are experiencing emotional and behavioral problems. We pride ourselves on providing the highest level of healthcare services to our patients, always keeping sight of the fact that we are caring and comforting those in need with compassion, dignity and respect.

**Our specialized programs include:**
- Child & Adolescent Inpatient Program
- Adult Acute Inpatient Program
- Adult Affective Disorders Program
- Partial Hospitalization Program

If you or a loved one needs help, call 941-251-5000 for a free assessment 24 hrs. a day, 7 days a week.

Suncoast Behavioral Health Center is a Baker Act receiving facility.

Accepting Most Insurances and Self-referrals
Neighborhood heroes needed. Please apply within.

Everyone gets sick. But not everyone can afford to see a doctor.

Thanks to the generous support of local doctors and people like you, We Care Manatee fills in the gap for the working poor in our community who don’t qualify for government healthcare programs or have the resources to pay for healthcare.

Find out how little it costs and how good it feels to help an uninsured working neighbor get basic healthcare.

Be a neighborhood hero by donating today at: WeCareManatee.org/Hero
